 Development in-house managementsystem Contraccount

4 Education

2014 (ongoing) **HBO Informatica**, Avans University of Applied Sciences
 's-Hertogenbosch

2012 - 2014 **VWO E&M** (Passed), Carolus Borromeus College Helmond

2005 - 2012 **HAVO E&M** (Passed), Carolus Borromeus College Helmond

5 Extracurricular activities

- 2015 (ongoing) **Development Pext**
Python-based extendable tool
<https://pext.hackerchick.me>
Python3 tool using QML which is extensible through modules. Officially supported modules make it usable as emoji-searcher, app launcher, weather info app, password manager, internet radio receiver, todo-list manager and more
- 2016 (ongoing) **Support AsteroidOS**
Open Source operating system for smartwatches
<https://asteroidos.org>
My contributions are adding i18n support and providing ongoing support for it with Weblate, creating two watch-faces, getting the Android app in F-Droid and providing bugfixes
See <https://florentrevest.github.io/2016/12/07/asteroidos-alpha>
- 2016 (ongoing) **Development mkblog.sh**
Simple blogging system written in POSIX shell
<https://github.com/TheLastProject/mkblog.sh>
- 2016 **Development CSSBox**
Lightbox for websites completely written in CSS3
<https://thelastproject.github.io/CSSBox>
- 2013 **Development triggerbot**
IRC bot to protect people with PTSD
<https://github.com/TheLastProject/triggerbot>

6 Skills and competences
